

SIMPLE. EASY. COMPLIANT.

CareAttend, powered by CellTrak, was tailor-built for the self-direction market with an emphasis on elegance & simplicity. The easy-to-use app enables consumers to make decisions around the care they receive and provide services while supporting your organization.

CellTrak is the leader in electronic visit verification with over 16 years of home-care-focused development on software systems.

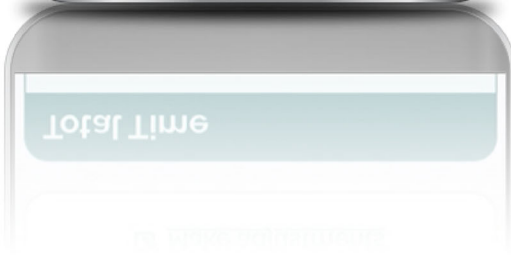

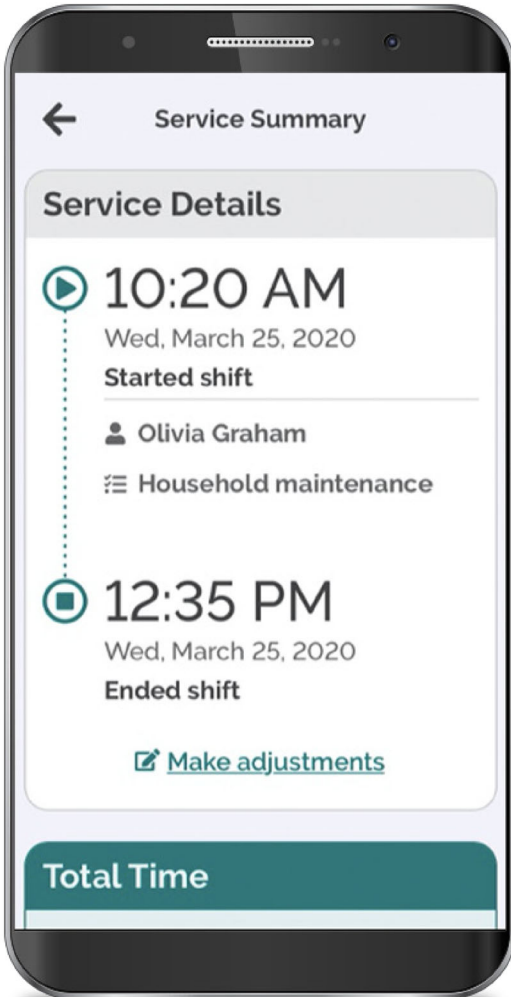

CareAttend can be used on Android and iOS.

Why CareAttend?

- » Faster authorizations
- » Removal of paper timesheets
- » Fast implementation timelines
- » More visibility into services
- » Easy approval of time sheets

## Deploy Care & Services Quickly

- » Seamless, quick and easy onboarding for caregivers
- » Easy to use and non-intrusive mobile application
- » Compliance with state mandated EVV built in
- » Efficient, regardless of mandated EVV requirements

## Features

- » HIPAA Compliant and Privacy Protected
- » Captures only required information
- » Easy to register and easy to use
- » Less administrative work / no paper
- » Data readily available for faster billing and payroll
- » Optional single sign-on option (\*no registration process)
- » Supports multiple languages on mobile

## Benefits

- » Compliance with emerging government, payer, and EVV regulations
- » Improved efficiency for caregivers, consumers, and administrative staff
- » Supports caregivers to submit service documentation in a hassle-free way
- » Easily train and deploy new users

### CareAttend Only Captures Data Required for EVV

- » Clock-in
- » Clock-out
- » Caregiver / Attendant
- » Consumer
- » Services (if-any)
- » Location – only at start and end of shift
